

Application No. 10/588,930
Second Preliminary Amendment

PATENT
Attorney Docket No.: WLI-001A

REMARKS

Applicants thank USPTO Attorney Advisor Cynthia Kratz for her assistance in properly establishing this application as a Continuation of International Application No. PCT/US2005/009500, a companion to co-pending U.S. Serial No. 10/588,933, which was filed as a Sec. 371 application based on the same International Application.

Petition papers have previously been filed to convert the present application to a §111(a) Continuation application. Based on a voicemail from Ms. Kratz on December 7, 2006, this Second Preliminary Amendment amends the Specification of this application to specifically identify it as a Continuation of International Application No. PCT/US2005/009500.

Accordingly, Applicants respectfully submit that the Petition to convert this application to a §111(a) Continuation application is now in condition to be granted.

Respectfully submitted,

David Silverstein
